

- i** *n*      Generate *n* graphs of the requested type. At present, only available if the **-R** flag is used.
- n** *prefix*      Normally, integers are used as node names. If *prefix* is specified, this will be prepended to the integer to create the name.
- N** *name*      Use *name* as the name of the graph. By default, the graph is anonymous.
- o** *outfile*      If specified, the generated graph is written into the file *outfile*. Otherwise, the graph is written to standard out.
- d**      Make the generated graph directed.
- v**      Verbose output.
- ?**      Print usage information.

## EXIT STATUS

**gvgen** exits with 0 on successful completion, and exits with 1 if given an ill-formed or incorrect flag, or if the specified output file could not be opened.
